Zinnia's Garden

Think about the most efficient strategy for each problem. Then show your work using numbers, labeled sketches, or words.

- 1** Zinnia is planting her garden. She made 9 rows for carrots. She put 28 carrot seeds in each row. How many carrot seeds did she plant?

- 2** Zinnia has 15 pots for flowers. She planted 12 flower seeds in each pot. How many flower seeds did she plant?

- 3** Zinnia has 13 rows for tomatoes. She planted 29 tomato seeds in each row. How many tomato seeds did she plant?

- 4** **CHALLENGE** Zinnia planted 108 cucumber seeds in 6 different pots. How many cucumber seeds are in each pot?
